Notice of Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2002, 37 CFR 1.18 is proposed to be revised to change the patent issue fees as set forth below. As stated above, the final fees may be a different amount, and applicant should check the web site given above when paying the fee.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:

By a small entity (Sec. 1.27(a))--\$655.00

By other than a small entity--\$1,310.00

(b) Issue fee for issuing a design patent:

By a small entity (Sec. 1.27(a))--\$235.00

By other than a small entity--\$470.00

(c) Issue fee for issuing a plant patent:

By a small entity (Sec. 1.27(a))--\$315.00

By other than a small entity--\$630.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION***Terminal Disclaimer***

1. The terminal disclaimer filed on 25 July 2002 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,331,917 has been reviewed and is accepted. This terminal disclaimer has been recorded.

Reasons for Allowance

2. Claims 34-74 are allowed in light of applicant's arguments, amendments, and the terminal disclaimer, noted above. Applicant has canceled claims 1-33. A statement of the examiner's reasons for allowance follows.

3. The instant application is directed to an image pickup system including a novel zoom lens system disclosed previously by applicant in U.S. Patent No. 6,331,917 B1 (hereinafter '**917**').

(a) Each of the independent claims 34-41, 51, 56, 58-64, and 66 of the instant application reads on an image pickup system that includes an objective optical system comprising a four-group (+ -+ +) inner-focusing zoom lens in accordance with the '**917**' patent; taken together with an electronic image pickup device located on an image side of the previously disclosed zoom lens system. Similarly, each instant independent claim is distinguished by a particular combination of the key features/limitations recited in the '**917**' claims. For example, independent claims 34-41, 51, 56, 58-62 are all distinguished over the prior art by the relationship $2.5 \text{ mm} < f_{B(\text{min})} < 4.8 \text{ mm}$, originally disclosed in '**917**'; independent claims 63 and 64 are each distinguished over the prior art by, *inter alia*, the cemented lens in the third lens group, which was originally disclosed in '**917**'. Each of claims 63 and 64 are further distinguished in that the cemented lenses in the second lens groups are convex on the image side, as further disclosed in '**917**'. In-

Art Unit: 2873

dependent claim 66 is distinguished by the particular arrangement of lenses in the third lens group.

(b) The invention(s) comensurate with U.S. Patent No. 6,331,917 B1 excepted, the prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Remarks/Information

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David N. Spector whose telephone number is (703) 305-1521. The examiner can normally be reached at this number Monday through Friday between 6:00 AM and 2:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps, can be reached on (703) 308-4883.
